

# Monthly Prayer Requests

- **Praise Report:** Praise God that we reached the 100,000 interception mark at the end of last year. We are grateful for every person we have been able to impact, and we pray for continued protection, wisdom, and growth as we move forward.
- **New Pilots:** After many years of praying for the funds to start new pilots, we're grateful to be launching operations in Senegal (November 2025), Zimbabwe, and Benin (February 2026), with Democratic Republic of Congo, Ghana, and Ethiopia planned to launch in March 2026. Please pray that the Lord would prepare the ground, bless the work, protect our teams, and use these stations to intercept many people.
- **India Partnerships and Growth:** Please pray as we develop partnerships and explore pilot stations across several regions of India. We are awaiting confirmation from a strong Christian partner for a pilot near a key railway connection in one major metropolitan area close to a high-risk red-light district known for violence and exploitation, and we are also working with this same partner in another northern region where exploitation is prevalent. In a nearby area that is both a transit and destination point for sex trafficking, we have identified an additional potential partner, and we are in ongoing conversations with Christian organizations in two eastern and central regions recognized as significant sources and transit points for bonded labor and child labor. Finally, with one of our long-standing partners, we are prayerfully exploring the possibility of opening a station at a major railway junction serving India's northeastern region. Please pray for wisdom, trustworthy partnerships, and God's protection and guidance as these pilots and relationships take shape.

- Nepal: Our national staff have recently returned from training new teams in three new locations, and these new stations are now preparing to launch. There is strong excitement and momentum on the ground—please pray for wisdom, unity, and solid foundations as the work begins, and ask for God’s protection, guidance, and favor over the teams and the communities they will serve.
- South Africa: We successfully launched Web TM, an automated online monitoring system that pulls Facebook recruitment cases directly into the app—reducing manual search time and improving accuracy. Please pray for God’s favor on this application and that He would enlarge its influence and effectiveness in intercepting victims recruited online.
- Indonesia: We praise God for expanded monitoring capacity at airports and ports and for strong collaboration with government partners. Please pray that the Lord would continue to grow the team’s impact.
- Namibia: We are currently operating one station with a team that is passionate about stopping the scourge of trafficking and committed to growing in their ability to intercept victims and share the gospel with them. Please pray that they would grow in fruit and influence in this work.
- Zambia: We are grateful to be seeing gospel fruit and ask that God would continue to bring many into His kingdom through our work across all our stations. Please pray for increasing boldness and power as our teams share the good news, and for partnerships with sound churches in the countries to which victims are repatriated so they may be discipled and grow into mature believers.
