

Monthly Prayer Requests

- **Expansion to New Countries:** As we start new operations in Ghana, Guinea, Ethiopia, Rwanda, and Argentina, we ask for your prayers to empower, equip, and sustain the work. Our work depends on collaboration with government and NPOs, passionate subcommittees, faithful prayer partners, and brokenhearted monitors who go above and beyond to love and serve the most vulnerable.
- **Advancement of the Gospel:** As we intervene at someone's most important moment in their lives, we want to present the beauty and message of Jesus with power. Ask the Lord to open doors for us to share the gospel and for the roots of His message to go deep into people's hearts.
- **Goal of 450 Arrests:** With five months remaining and 220 traffickers arrested so far this year, teams continue working toward a goal of 450 arrests. Please pray that we would achieve this goal. Every trafficker removed from the network creates opportunities to prevent future exploitation and protect vulnerable people.
- **India:** After nearly seven years at a key transit hub and over a thousand intercepts, the program was closed in 2025 by forces outside our control. After much prayer, we secured official permission two months ago to work at two bus stations in the city—a real win, as government permissions are very difficult to obtain. Pray that God keeps this door open and that we bear much fruit for His kingdom.
- **Senegal:** The team is awaiting approval from the national authority responsible for combating human trafficking—authorization that would allow closer collaboration with authorities across Senegal, stronger investigations, and expanded partnerships in other cities to support safe and cost-effective repatriation of potential victims.

- Benin: Preparations continue for the launch of monitoring activities in a new city with strong potential for arrests and convictions. The project manager has made an initial visit and is arranging a meeting with authorities to explain the team's approach and strengthen cooperation ahead of the launch.
- Burkina Faso: The team is following up on several trafficking-related investigations. At least eight suspects have reportedly been arrested, charged, and placed in custody, including cases involving the exploitation of minors and deceptive recruitment schemes. Two additional investigations remain active.
- Zambia: The team secured its third conviction—two minors trafficked for labor exploitation. The suspect was found guilty by the Magistrate Court on February 20, 2026, and sentenced by the High Court to 24 years in prison with hard labor on May 19, 2026—a strong reminder of why legal follow-up, police collaboration, and case persistence matter after interception.
- Mozambique Awareness Campaign: Human trafficking continues to be a painful reality in several regions of Mozambique, particularly affecting women, children, and young people exploited through false promises of employment, marriage, or better living conditions. The team has an opportunity to participate in several awareness campaigns alongside community leaders to protect the most vulnerable, empower authorities and organizations that combat this crime, and bring greater awareness to communities as well as the courage to report these situations.
